Get Directions

On November 26th, 2024, Enerbrain will host the ENERGATE 3rd Regional Training Workshop at its headquarters in Turin, Italy, bringing together leaders from the finance, technology, and real estate sectors to foster collaboration and accelerate the transition towards energy-efficient building practices. The workshop, which will run from 9:00 to 13:30, aims to explore innovative solutions that align with Europe's 2050 climate neutrality goals through sustainable building renovations.

With energy efficiency at the forefront of Europe's environmental objectives, this event will connect building owners, project implementors, and financiers to tackle the challenges of scaling green building practices. Key discussions will center on developing financial instruments, leveraging cutting-edge technologies, and creating standardised investment models to support large-scale energy-efficient projects.

Why Attend?
Participants will have the opportunity to:

- **Discover how finance and technology are transforming real estate** into sustainable, energy-efficient assets.
- **Explore scalable investment models** that help secure financing for energy efficiency projects.
- **Gain valuable insights** on overcoming the challenges of aligning EU energy efficiency goals with the real estate market.
