The European projects InEExS and ENERGATE, members of the Smart Energy Cluster, are participating in Verde.tec Forum 2025, held as part of the 7th International Verde.tec / Environmental Technologies Exhibition.

Both projects will organise a dedicated workshop titled:

"*From Innovation to Market: New, Advanced Services for Energy Efficiency in Buildings*"

This event focuses on presenting the smart digital tools, innovative approaches,

and business models developed within these two projects, showcasing how they transition from pilot implementation to real-market adoption.

Through discussions on the projects' outcomes, the event will explore solutions, including:

- Energy management-enabled heating systems
- Blockchain technology
- Machine learning
- Digital platforms for connecting key stakeholders (building owners, municipalities, energy service providers, technical support companies, and investors).

Participants will examine strategies for optimising energy consumption and unlocking sustainable financing options, paving the way for smarter and greener buildings.

Target Audience

- Energy service companies
- Real estate developers/managers
- Technical/development project companies
- Technology providers
- Financial institutions / Banks / Investors
- Municipalities / Public sector
- Research institutions
- Policy makers

During this 3 day event, you can find us at **Stand D33 in the LIFE EU Programmes zone from February 21 to 23**.

We are excited to welcome you to our exhibition stand, where you will have the opportunity to:

- Discover the ENERGATE Platform and the InEExS innovative business models, designed to enhance energy efficiency.
- Explore cutting-edge digital solutions developed within the projects.
- Engage in discussions on potential collaborations and synergies, aiming to drive impactful energy efficiency initiatives in buildings.

Entrance to the exhibition is free and the event will be conducted in Greek!
