ENERGATE
ENERGY EFFICIENCY MARKETPLACE

USER PROFILES

OF THE ENERGATE PLATFORM

Co-funded by the European Union under project ID 101076349. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or CINEA. Neither the European Union nor the granting authority can be held responsible for them.

BUILDING OWNERS

Building Owners (such as private owners, public authorities, building administrators, building managers, asset managers, property managers, and real estate developers) are users with a building that needs renovation.

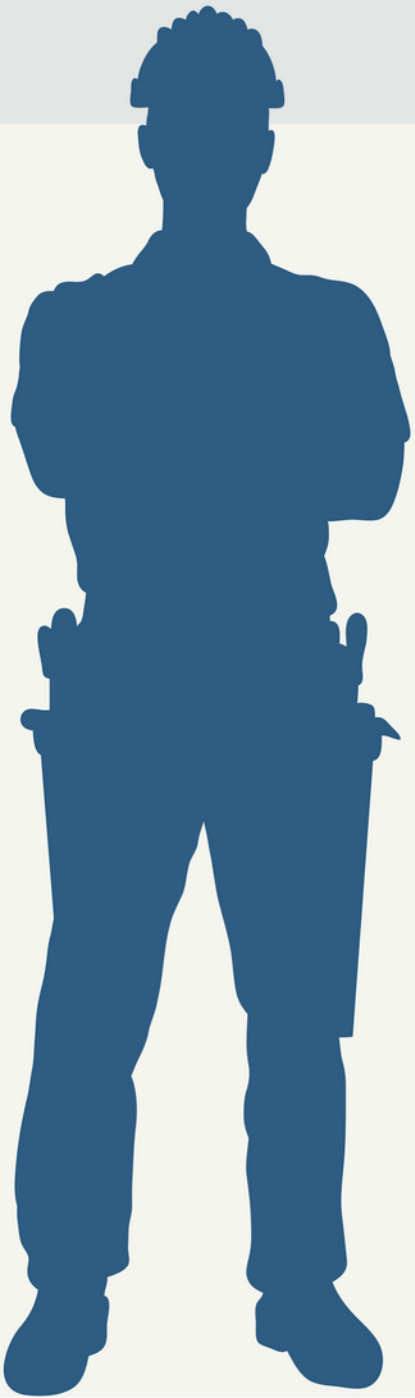

Use the platform to:

- Create a building profile
- See how other similar buildings have improved energy performance
- Search for renovation experts
- Select preferred type of financing
- Find financial support
- Have their building aggregated to attract more financiers

IMPLEMENTORS

Implementors (such as project developers, ESCOs, energy consultants, architect & design companies, engineering companies, installers, and maintenance companies) are users who can provide technical support for renovation projects.

Use the platform to:

- Be matched with buildings that need renovation
- Access all the necessary building information
- Extract a well-structured offer with project details
- Insert a project from an external client
- Have their project aggregated with other similar projects
- Find financial support

FINANCIERS

Financiers (such as public or private funds, investors, and financial institutions) are users who want to finance energy efficiency projects in buildings.

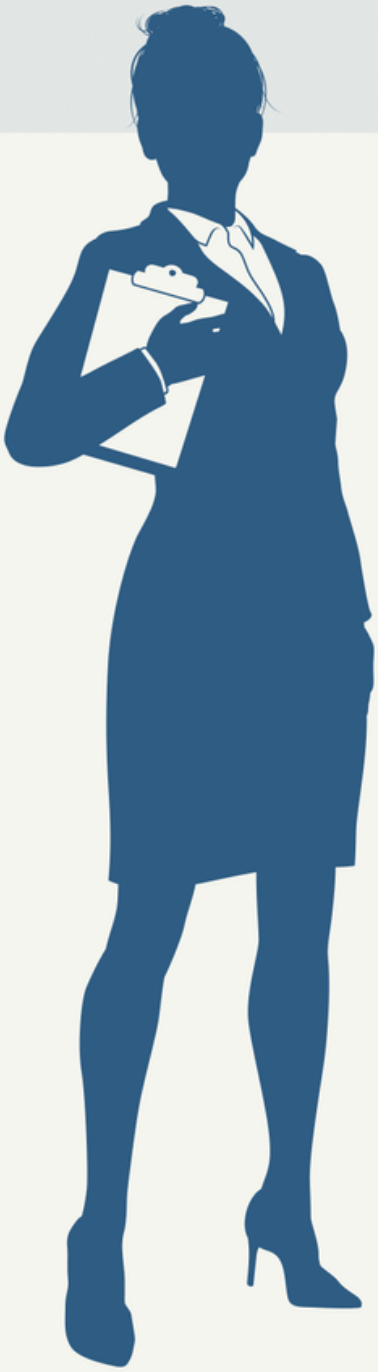

Use the platform to:

- Declare financial and non-financial criteria
- Be matched with projects
- See the projects ranked according to his declared criteria and preferences
- Access information about the projects
- Conduct Due Diligence processes
- Provide financial support

PUBLIC AUTHORITIES

Public authorities, such as municipalities, are users with public buildings needing renovation.

Use the platform to:

- Create a pre-announcement of your energy efficiency project
- Notify platform users that you are looking for technical and/or financial support
- Allow technical teams and fund providers to prepare financed solutions for your project
- See how other similar buildings have improved their energy performance
- Have your project aggregated with other public buildings to increase your chances of finding finance
